

seit 1883

36" 19.8 cu.ft. Counter-Depth French Door Refrigerator, Interior Water, ENERGY STAR®

BRFD2230XSS

Key Features & Benefits

Blue Light Technology

Blue Light Technology keeps fruits and vegetables fresh and vibrant long after they're picked. Continuous blue light rays illuminate the crisper, allowing photosynthesis to persist, extending shelf life while preserving natural flavors, colours, and nutrients.

Fingerprint-Free Stainless Steel

Keep your kitchen looking beautiful with easy-to-clean Fingerprint-Free Stainless Steel—say goodbye to fingerprints and smudges!

Counter-Depth

These Counter-Depth Refrigerators are designed to blend seamlessly with your countertop, featuring hidden hinges and discreet, tucked-away feet for a truly built-in look and feel.

IonFresh

IonFresh generates negative ions inside the refrigerator to capture and neutralize airborne bacteria, odour-causing microbes, and ethylene gas. This helps extend the freshness of fruits and vegetables while keeping the air clean and smelling fresh.
