# SAFETY

## **FOR YOUR SAFETY**

Do not store or use gasoline or other flammable vapors or liquids in the vicinity of this or any other appliance.

## **⚠ WARNING:**

Improper installation, adjustment, alteration, service or maintenance can cause property damage, injury or death. Read the installation, operating and maintenance instructions thoroughly before installing or servicing this equipment.

### **Attention Owners and Operators**

If the beverage center has been laid on its side, placed upside down or tilted more than 45° during moving or transport, it is extremely important to allow the refrigerant and compressor oil to separate and settle so the compressor operates properly. Failure to do so will cause severe mechanical problems with the unit's motor/compressor.

#### **TRANSPORT**

Use two or more people to move the beverage center.  
DO NOT use stainless steel handle to move or lift the unit.

#### **VENTILATION SPACE**

In order for the beverage center to function efficiently, it **MUST** be placed in an adequately ventilated space to allow for heat dissipation. It is important to allow at least 2 inches of space on each side and above the unit, and 4 inches of space behind the unit.

The door requires approximately 22 inches of space in front of the beverage center to open. To fully utilize the unit, space should be allowed for the door to open fully to 160°.

#### **STABLE SURFACE**

The beverage center must be placed on a flat, stable surface. Adjust the unit's front leveling legs to assure quiet operation and prevent rattling when the compressor activates.

#### **IMPORTANT:**

Never place the unit on soft materials such as foam, plastic or thick textured carpeting.

Make sure the unit and door are aligned. Use the adjustable legs (front only) to align the unit and/or the screws under the triangular bracket cover to align the door. See page 4 for more detailed instructions on accessing the metal bracket.

## SAFETY WARNINGS

Before you use your beverage center, please read this owner's manual carefully. Use this appliance only for its intended purpose as described in this owner's manual.

**DANGER** – Risk of child entrapment. Before you throw away your old refrigerator or freezer:

- Take off the doors.
- Leave the shelves in place so that children may not easily climb inside.
- The appliance must be correctly installed and connected to the power supply in accordance with the installation instructions before it is used. (See: "HOW TO INSTALL").
- The main power supply must be properly grounded.
- This beverage center must be positioned so that the plug is accessible. Never unplug the unit by pulling on the power cord. Always grasp the plug firmly and pull straight out from the outlet.
- Do not use an extension cord as this can negatively affect the performance of the unit.
- When transporting the beverage center, keep the unit in the upright position. Do not tilt the appliance beyond 45° or place the unit in an upside-down position. Do not tip over.
- Do not touch the cooled surfaces while the appliance operates, especially not with wet hands, because the skin may stick to the cold surfaces.
- It is recommended that the beverage center is positioned away from any combustible sources, such as gas, petrol, alcohol, lacquer and banana oil, etc. The aforementioned objects should not be stored in the beverage center under any circumstances. If the unit fails to cool properly, dispose of spoiled food as needed.
- Unplug your unit before cleaning or making any repairs. NOTE: If for any reason this product requires service, we strongly recommend that a certified technician perform the service. Repairs made by non-qualified personnel will void the warranty.
- Do not defrost the appliance with other electrical devices (hairdryer, etc.), and never scrape the ice or frost layer with sharp tools.  
Warning:
- Do not damage the refrigerant circuit.
- The rating plate is inside the appliance or outside on the rear or side wall.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.
- Do not run cord over carpeting or other heat insulators. Do not cover the cord. Keep the cord away from traffic areas, and do not submerge in water. If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similarly qualified person in order to avoid a hazard. Repair or replace immediately all electric cords that have become frayed or otherwise damaged. Do not use a cord that shows cracks or abrasion along its length, the plug or the connector end.
- Do not operate your beverage center in the presence of explosive fumes.

### **WARNING**

Do not use flammable materials on or near the unit. This can result in fire and cause irreparable harm or damage to the unit.

**DANGER** – Risk of Fire or Explosion. Flammable Refrigerant Used. To Be Repaired Only By Trained Service Personnel. Do Not Puncture Refrigerant Tubing.

### **CAUTION**

Risk of Fire or Explosion. Dispose of Property In Accordance With Federal or Local Regulations. Flammable Refrigerant Used.

### **CAUTION**

Risk of Fire or Explosion. Flammable Refrigerant Used. Consult Repair Manual/Owner's Guide Before Attempting to Service this Product. All Safety Precautions Must Be Followed.

### **CAUTION**

Risk of Fire or Explosion Due to Puncture of Refrigerant Tubing; Follow Handling Instructions Carefully. Flammable Refrigerant Used.
