| <b>No. of lights</b>               | 2       | <b>Full-glass inner door</b>                     | Yes              |
| <b>Lighting</b>                    | Halogen | <b>Removable inner door</b>                      | Yes              |
| <b>Replaceable light</b>           | Yes     | <b>Total no. of door glasses</b>                 | 4                |
| <b>Light power</b>                 | 40 W    | <b>Soft Close</b>                                | Yes              |
| <b>Light on when door is open</b>  | Yes     | <b>Cooling system</b>                            | Tangential       |
| <b>Lower heating element power</b> | 1200 W  | <b>Cooling duct</b>                              | Single           |
|                                    |         | <b>Cooling System Speed Reduction</b>            | Yes              |

Upper heating element - 1000 W  
Power  
Grill element - power 1700 W  
Large grill - Power 2700 W  
Circular heating element 2000 W  
- Power

Inner cavity dimensions 360x460x425 mm  
(HxWxD)  
Temperature control Electronic  
Cavity material EverClean enamel

## Accessories Included

Rack with back stop 2  
Enameled 1.6"-deep tray 1

Insert grid 1  
Telescopic Guide rails, partial Extraction 1

## Electrical Connection

Plug Hard-wired  
Voltage 120/240 V  
Current 15 A  
Voltage 120/208 V

Current 13 A  
Frequency 60 Hz  
Power cord length 59 1/16 "

---

## Compatible Accessories

---

### BN620-1

Enamelled tray, 20mm deep

### BN640

Enamelled tray, 40mm deep

### GTP

**\*\*Partial-extension telescopic guides\*\***  
Length: 14" Extraction: 11 1/4" Material:  
Stainless steel AISI 430 polished

### GTT

**\*\*Total-extension telescopic guides\*\***  
Length: 14" Extraction: 16.5" Material:  
Stainless steel AISI 430 polished

### PALPZ

Pizza shovel with fold away handle  
width: 315mm length : 325mm

### PR3845X

Antifingerprint stainless steel. Cover  
for furniture in column installation of  
more ovens

## Symbols glossary

|                                                                                    |                                                                                                                                                                                                                                                                                                                                                                    |                                                                                     |                                                                                                                                                                                                                                                                                                                                                         |
|------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|    | Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.                                                                                                                                                                                                                                                 |    | Air cooling system: to ensure a safe surface temperatures.                                                                                                                                                                                                                                                                                              |
|    | Defrost by time: with this function the time of thawing of foods are determined automatically.                                                                                                                                                                                                                                                                     |    | Defrost by weight: With this function the defrosting time is determined                                                                                                                                                                                                                                                                                 |
|    | ...                                                                                                                                                                                                                                                                                                                                                                |    | Quadruple glazed: Number of glazed doors.                                                                                                                                                                                                                                                                                                               |
|    | Automatic lighting switches off: for greater energy savings, the lighting switches off automatically after one minute from the start of cooking.                                                                                                                                                                                                                   |    | Electric                                                                                                                                                                                                                                                                                                                                                |
|    | Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.                                                                                                                                                                                  |    | Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.                    |
|  | Circogas: In gas ovens the fan distributes the heat quickly and evenly throughout the oven cavity, avoiding flavour transfer when cooking a number of different dishes at the same time. In electric ovens this combination completes cooking more quickly of foods that are ready on the surface, but that require more cooking inside, without further browning. |  | Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.                                                                                                                      |
|  | Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.                                                                                                                                                    |  | Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.                                                                                                                                                   |
|  | Circulaire + grill: Circulaire with upper element or grill: Similar to fan with upper element with the added cooking speed of circulaire, ideal for dishes with a crispy topping. When used with the grill the food will brown more quickly.                                                                                                                       |  | True European Convection: The combination of the fan and circular heating element around it provides many benefits, including no preheat if cooking time is longer than 20 minutes, no flavor transfer when cooking different foods at the same time, lower energy consumption, and shorter cooking times. Suitable for all types of food preparations. |
|  | ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.                                                                                                                                                                                                                                            |  | Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.                                                                                                                                           |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|  <p>Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.</p> |  <p>Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.</p> |
|  <p>All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.</p>                                                                                                                                                                                                                                                                                                                                                                                               |  <p>The inner door glass: can be removed with a few quick movements for cleaning.</p>                                                                                                                                                                                                                                                                  |
