Energy Star and ISO14001 Certified:

The SMEG production process is carefully-managed in order to limit the environmental impact as much as possible. The ISO process is checked and certified by Independent International bodies IQNET and CISQ (SMEG complies with the standard ISO14001). All SMEG dishwashers and every new refrigerator model are ENERGY STAR-qualified through the US Department of Energy and US Environmental Protection Agency. Energy efficiency is important to SMEG, and our engineers are constantly working to keep the energy and water consumption of each dishwasher and refrigerator as low as-possible. ENERGY STAR-certified products use approximately 40% less energy than the federal minimum standard for energy consumption. By choosing an ENERGY STAR-certified product, you are helping to preserve the environment without compromising on product quality or performance.
