CLEARANCE TO COMBUSTIBLE CONSTRUCTION:

- If installed under any combustible construction the area above the cooking surface of the grill must be covered with an approved exhaust hood.
- It is highly recommended the hood be sized with a 3" overhang on all exposed sides.
- The exhaust hood shall provide no less than 1,200 CFM of proper exhaust ventilation.
- The exhaust hood must be approved for outdoor installation and used with a dedicated GFCI branch circuit.
